

Let **STORM** exceed your expectations!

March 16, 2010

### Manufacturing Excellence with **SERVICE/QUALITY/RESULTS**

Storm Technologies, Inc. is known for our comprehensive combustion improvement programs to provide SERVICE/QUALITY/RESULTS. Not only can we provide these services, we can exceed your plant's expectations by providing quality products using our manufacturing resources.

This includes ductwork, pulverizer components, airflow measurement devices, metal expansion joints and dampers. Our manufacturing facility stocks various materials and has the ability to design, fabricate and expedite these projects immediately if required depending on size, materials, etc.
